

FEATURE STORY

# VAASCO GROUP VOLTAGE AS A SERVICE

Intelligent voltage management. Measurable results.  
Guaranteed performance.

By **JAMES MORGAN**  
Energy Correspondent

As energy costs rise and sustainability targets become more demanding, businesses are turning to smarter ways to reduce consumption and improve power quality.

VAASCO Group is leading the way with Voltage as a Service (VAAS™) — a fully managed solution that delivers proven energy savings, enhances asset performance and supports your decarbonisation goals.

VAASCO takes on the risk and the responsibility, so you can enjoy the benefits — without the capital outlay or complexity.

Full story on Pages 4–5

THE VAAS™ DIFFERENCE

**GUARANTEED ENERGY SAVINGS**

VAASCO guarantees energy savings, backed by performance monitoring and transparent reporting.

**ZERO CAPEX. ZERO RISK.**

No upfront investment. No technical risk. You only pay from the savings we deliver.

**FULLY MANAGED SERVICE**

We design, install, operate and maintain the system, ensuring optimal performance 24/7.

**REAL-TIME MONITORING & REPORTING**

Advanced monitoring platform provides real-time insights and easy-to-understand dashboards.

**IMPROVE POWER QUALITY & ASSET LIFE**

Optimised voltage reduces electrical stress, heat and wear on your equipment.

**SUPPORTS SUSTAINABILITY GOALS**

Lower consumption. Lower emissions. A practical step towards your net zero targets.

TYPICAL RESULTS\*

|                   |                                      |
|-------------------|--------------------------------------|
| 5–15%             | Energy Savings Typical Range         |
| Up to 10%         | Reduction in Carbon Emissions        |
| \$0.10–\$0.20/kWh | Average Cost Savings                 |
| < 2 Years         | Typical Payback (from savings share) |

\* Results vary by site, load profile and operating conditions.

WHAT IS VOLTAGE AS A SERVICE?

THE VAAS™ MANAGED SERVICE JOURNEY

“VAASCO’s Voltage as a Service model removes the barriers to voltage optimisation. We deliver the technology, manage the risk and share the rewards.”

— VAASCO Group

Lower energy bills. Better performance. Reduced emissions.  
That's the power of Voltage as a Service.
